- . B. Back bracing**
- . C. Physical therapy**

**The correct answer is c**

**Patient with early rheumatoid arthritis , what is (589 your management to decrease the limitation of : movement**

**Do not use analgesics or steroids, use DMARDs like - methotrexate or antiTNF, hydroxychloroquine little finger , with atrophy of the hypothenar (590 muscles , EMG showed cubital tunnel compression of : the ulnar nerve , what is your action now**

- . A. Ulnar nerve decompression**
- . B. Steroid injection**
- . C. CT scan of the spine**

**The correct answer is a**

**Patient came after deep laceration at the anterior  
:part of the wrist**

- a. Wrist drop**
- b. Sensory loss only**
- c. Claw hand**
- d. Unable to do thumb opposition**

**The correct answer is d**

**Radial nerve injury : wrist drop , common with -1  
humers injury (humers groove)**

**Unlar nerve injury : claw hand , common with -2  
elbow injury**

**Median nerve inury :unable to do thumb opposition -3  
, common with wrist injury**

**Old lady afraid of Osteoprosis, to avoid the risk, (669  
:you should advise her to do**

- a) Weight bearing exercise**
- ? (b**
- ? (c**
- ? (d**

**.Q is not complete**

**Sickle cell anemia patient presented with (670  
asymptomatic unilateral hip pain, most likely  
:diagnosis is**

- a) Septic arthritis**
- b) Avascular Necrosis**
- ? (c**

**The correct answer is b**

.....  
.....

**Best way to decrease pain in elderly with (669  
:bilateral knee pain and crepitation is**

- a) NSAID**
- b) Decrease weight**
- c) Exercise**
- ? (d**

**The correct answer is b , (I'm not sure )**

**Young male with morning stiffness at back (671**

**:relieved with activity and uveitis**

**a) Ankylosing Spondylitis**

**? (b**

.....  
.....

**Young patient with HTN came complaining of (669**  
**high blood pressure and red, tender, swollen big left**  
**toe, tender swollen foot and tender whole left leg.**

**:Diagnosis is**

**a) Cellulitis**

**b) Vasculitis**

**c) Gout Arthritis**

**?? (d**

**The correct answer is a , because tender and swollen**  
**.whole left leg**

**:Bursitis of the elbow joint caused by (672**

**a) Elbow trauma**

**b) Autoimmune disease**

**c) Staph. Aureus**

**d) ? rupture of bursa**

**The correct answer is a**

.....  
.....

**The best non-medical therapy is proven to be of (669**

**:benefit for osteoarthritis is**

**a) Muscle strength exercise**

**b) Give NSAID**

**c) Back slap**

**? (d**

**The correct answer is a**
